

The List of International Schools in The Netherlands

Including European and foreign national schools.

In The Netherlands you will find private international schools, as well as subsidized international education at so-called Dutch International Schools*, which feature an international curriculum taught in English according to the international standard at a relatively low fee compared to private schools. All DISS offer the IB Diploma Program in the final two years. (For more information on curricula check www.ibo.org; www.internationalprimarycurriculum.org, www.greatlearning.com/imyc/ and www.cie.org.uk/programmes-and-qualifications/cambridge-secondary-2/cambridge-igcse/curriculum/).
